JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

are as follows: From January 1 to March 7, 1908, Shimonoseki, cases 28, deaths 8; Moji, cases 126, deaths 17; and Wakamatsu, cases 134, deaths not given. In all of these places vaccination is being rigidly enforced. Considerable difficulty has been met with owing to so many cases being concealed.

Emigrants recommended for rejection.

Doctor Bowie further reports:

March 5. Number of emigrants per steamship *Asia* recommended for rejection, 5. Embarking at Shanghai, 2.

March 13. Per steamship *Mongolia*, 2.

MEXICO.

Report from Coatzacoalcas—Inspection of vessels—Health conditions good.

Acting Assistant Surgeon Thompson reports, April 2:

Week ended April 1. March 26, the American schooner *L. N. Dantzler*, bound for Galveston, was inspected and fumigated. March 28, the American steamship *Oregonian*, bound for Delaware Breakwater, was inspected. March 31, the German steamship *Syria*, bound for Colon via Progreso, was inspected.

No case of any contagious or infectious disease was reported during the week.

Report from Salina Cruz—Inspection and fumigation of vessels.

Acting Assistant Surgeon McPherson reports, April 1:

Period March 16 to 31, inclusive. Two steamships cleared from this port for San Diego, Cal. Both vessels were fumigated throughout while in the roadstead outside the harbor.

Reports from Veracruz—Inspection and fumigation of vessels—Smallpox cases imported from the interior.

Acting Assistant Surgeon Jacobs reports, March 29 and April 1:

March 28. Fumigated the British steamship *Manchuria*, bound for Mobile, with 25 in the crew. The vessel sails in ballast.

Three cases of smallpox were reported March 21. These were imported from the interior and immediately isolated.

The general sanitary condition is good.

PANAMA.

Report from Bocas del Toro—Health conditions of port and vicinity satisfactory.

Acting Assistant Surgeon Osterhout reports, April 1:

I have made careful inquiry of all persons in a position to know the health conditions, and am able to say that this port and the surrounding territory are in a healthy condition. There is no evidence of the existence of any infectious or contagious disease at the present time, nor has any existed since the close of the inspection service, October 31, 1907.
